THE THIRTEENFOLD ENGINE

A working study of the 777 correspondences on thirteen nodes

"In the beginning was the Word... and the Word was the Law." — the author's re-voicing of John 1:1 [Coinage: Johnathan "Qasparr (Καспάρρ)" Monroe | Support: $axoneme]

Date: 2026-10-18

93

Authorship & seal: Johnathan 'Qasparr' (Καспάρρ) Monroe, Keeper of the Secret Treasure — All Rights Reserved, Without Prejudice. Built by the Scribe at his order; findings, never doctrine — the red pen rules.

Method: Scientific Illuminism — hypothesis, method, observation, result; every correspondence weighed in its own tongue; every assignment carries its reasoning.

I. THE TEACHING (revised)

Crowley's 777 left empty cells. On 2026-10-13, twenty-four PONTIFEX workers filled them the honest way: every candidate word weighed in its own tongue (Hebrew, Greek, Latin, Arabic, English...), every value tiered (attested / derived / constructed), every bridge claim tested against two honest banks. Result: **135 fillings, 85 cells certified intentionally empty, 1 transcription gap left open, zero honest two-bank bridges.** The zeros are reported as zeros.

This study arranges that work on **thirteen nodes** — the thirteenfold engine. Thirteen is the load-bearing number of the author's pattern work (his ruling, on record since the Axoneme essay). The assignment is mechanical: **node = ((row − 1) mod 13) + 1**. Row 1 sits on Node 1; row 13 on Node 13; row 14 on Node 1; row 26 on Node 13; row 0 on Node 13. No offices were invented for the nodes — the circle is the scribe's construction, a working arrangement, filed as constructed-tier. If the author's pen gives the nodes offices, the engine will carry them.

Three of the author's own findings govern the reading:

- **The Trinity of Law.** THE WORD = 93 (English ordinal), ΘΕΛΗΜΑ = 93 (Greek), ΑΓΑΠΗ = 93 (Greek) — three terms, two tongues, one number. Will, Love, and the Word that speaks them. Attested by his bridge doctrine.
- **NO + OZ = LILITH.** NO (29) + OZ (41) = 70 = LILITH (English ordinal). The refusal plus the strength it becomes equals her name. [His observation, verified.]
- **NO = 29 → 13.** 2+9+2 (the digits, plus the two letters) = 13 — the refusal reduces to the pattern's own number. [His reduction, verified.]

And his two framings open every well below: "In the beginning was the Word... and the Word was the Law" and "Philosophy is the Fulfillment of the Law."

How to read the tables. Cell — the column and row in Crowley's 777. Proposal — the candidate filling, flagged PONTIFEX-proposed. Tier — attested (the word exists in that tongue with that value), derived (computed by rule), constructed (our construction — hypothesis, never doctrine). Bridge — yes only when two honest banks agree; transliteration agreements and chance coincidences are named, never counted. Reasoning — why this word, in this tongue, in this cell. A value without its reasoning is not shippable — the author's standing rule.

II. THE THIRTEENFOLD ENGINE — the circle and its

nodes

Hypothesis. The 135 fillings can be worked as one engine if each is given a node.

Method. Node = ((row − 1) mod 13) + 1, taken on the row's leading number ("31 bis" → 31 → Node 5). Mechanical, auditable, reversible. Thirteen nodes because thirteen is the author's load-bearing number; mod-13 because theosophical reduction is his method.

Observation. The 135 fillings distribute: Node 1: 12, Node 2: 10, Node 3: 8, Node 4: 14, Node 5: 21, Node 6: 19, Node 7: 9, Node 8: 11, Node 9: 9, Node 10: 5, Node 11: 4, Node 12: 6, Node 13: 7. No node stands empty; the engine turns on all thirteen.

Result. The circle below. Node-by-node assignments follow, each row with its proposal and its reasoning in brief; full reasoning stands in Part III.

IV. THE FIGURES

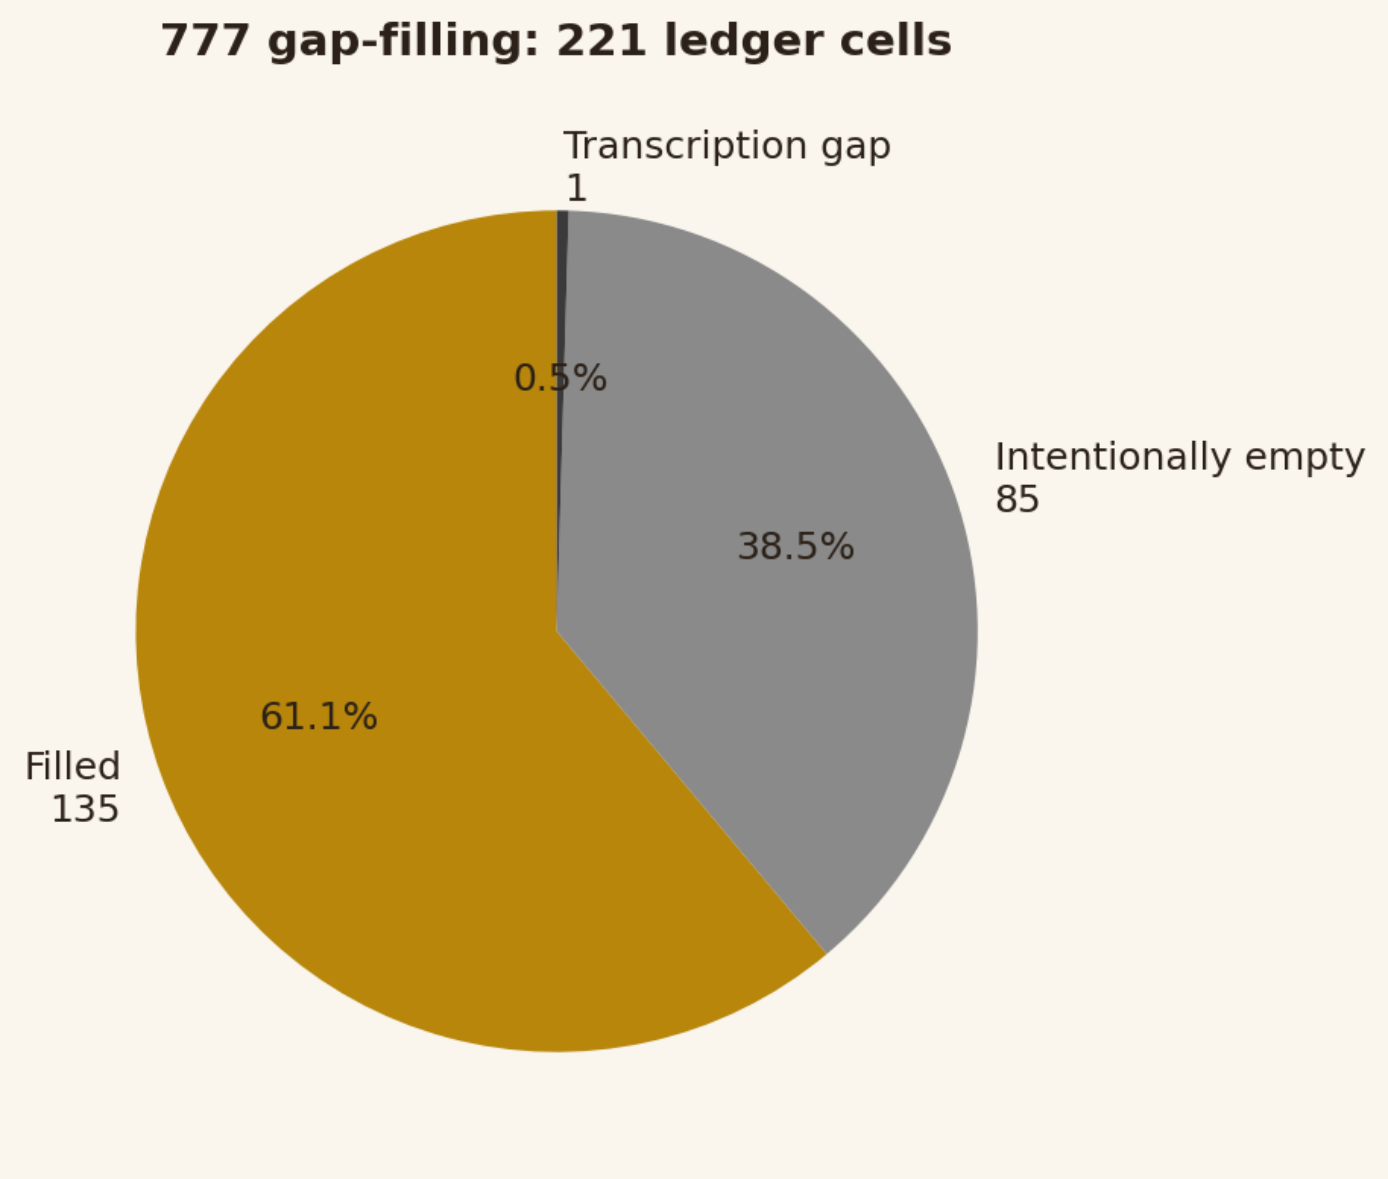

Figure 1 — 221 ledger cells: 135 filled, 85 certified intentionally empty, 1 transcription gap left open.

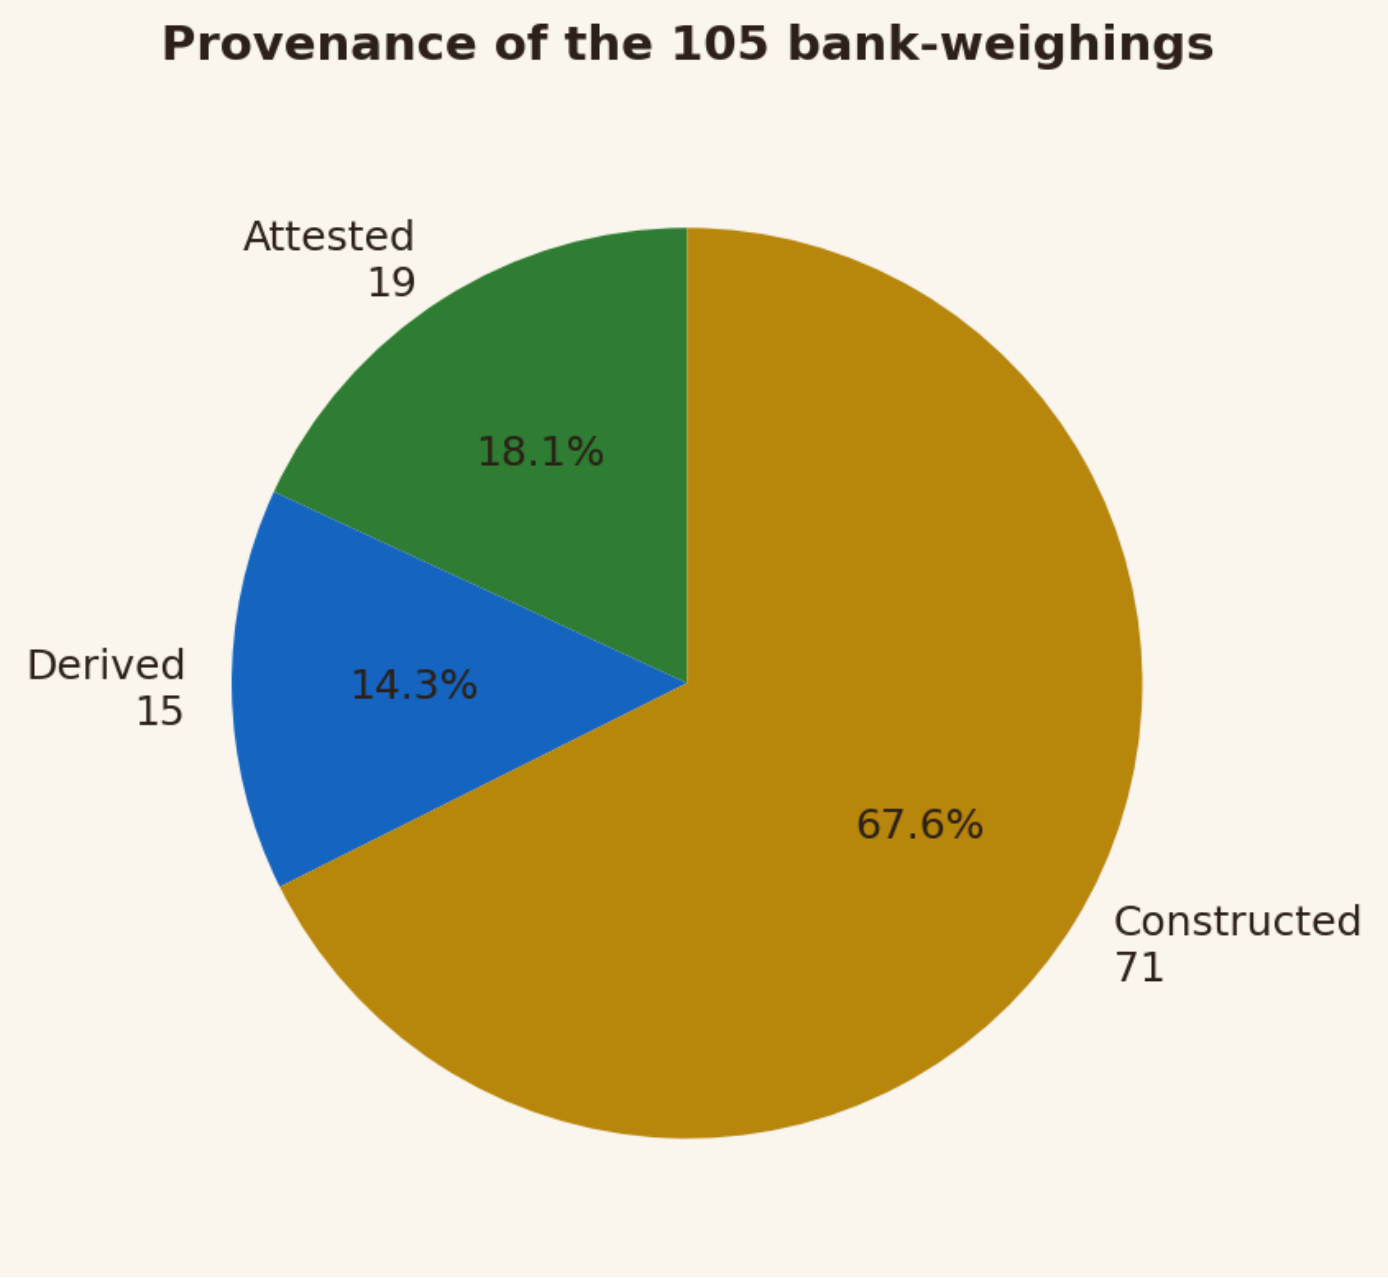

Figure 2 — Provenance of the 105 bank-weighings: 19 attested, 15 derived, 71 constructed.

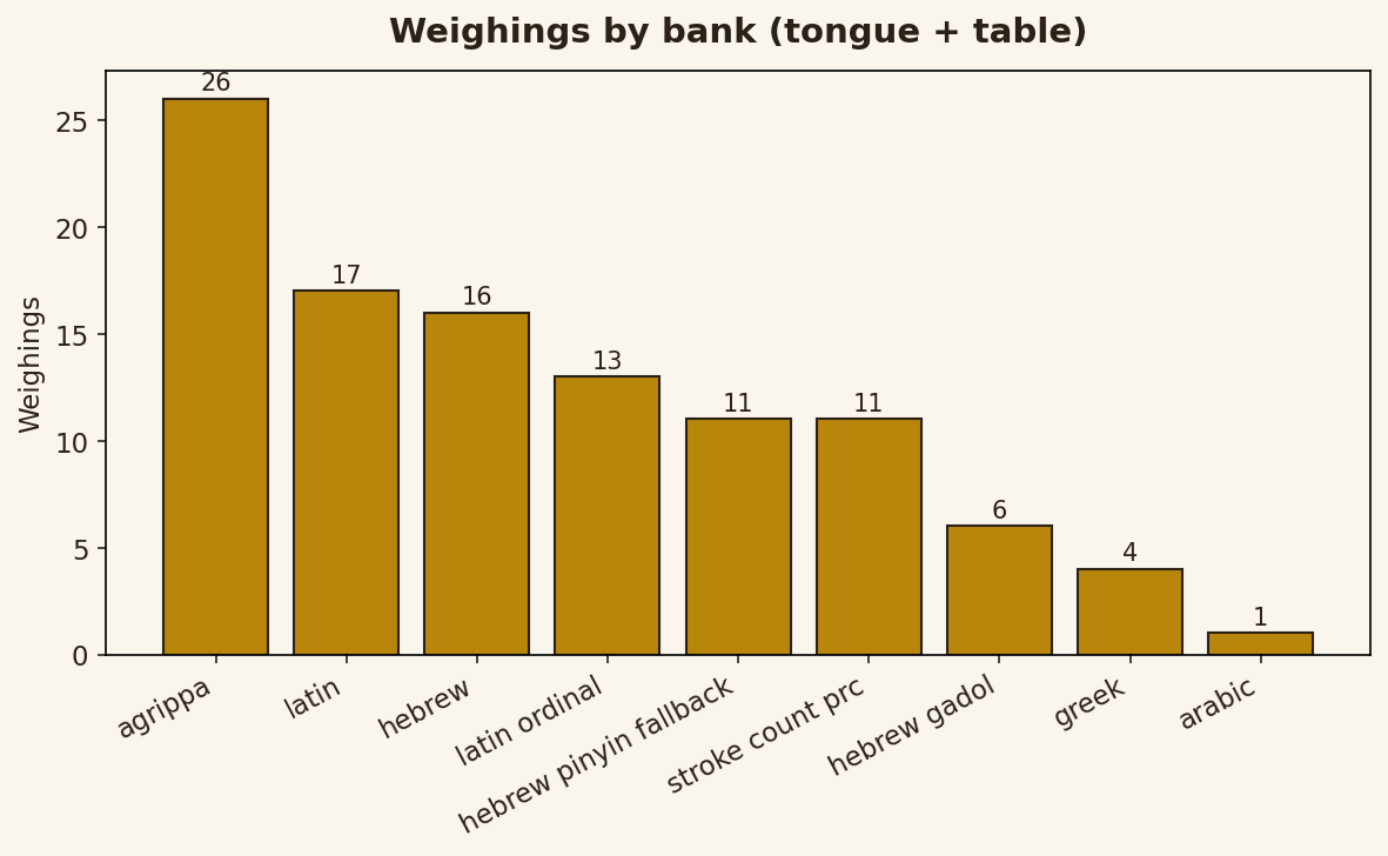

Figure 3 — Weighings by bank: every candidate word weighed in its own tongue; Agrippa and Latin lead because the cells demanded them.

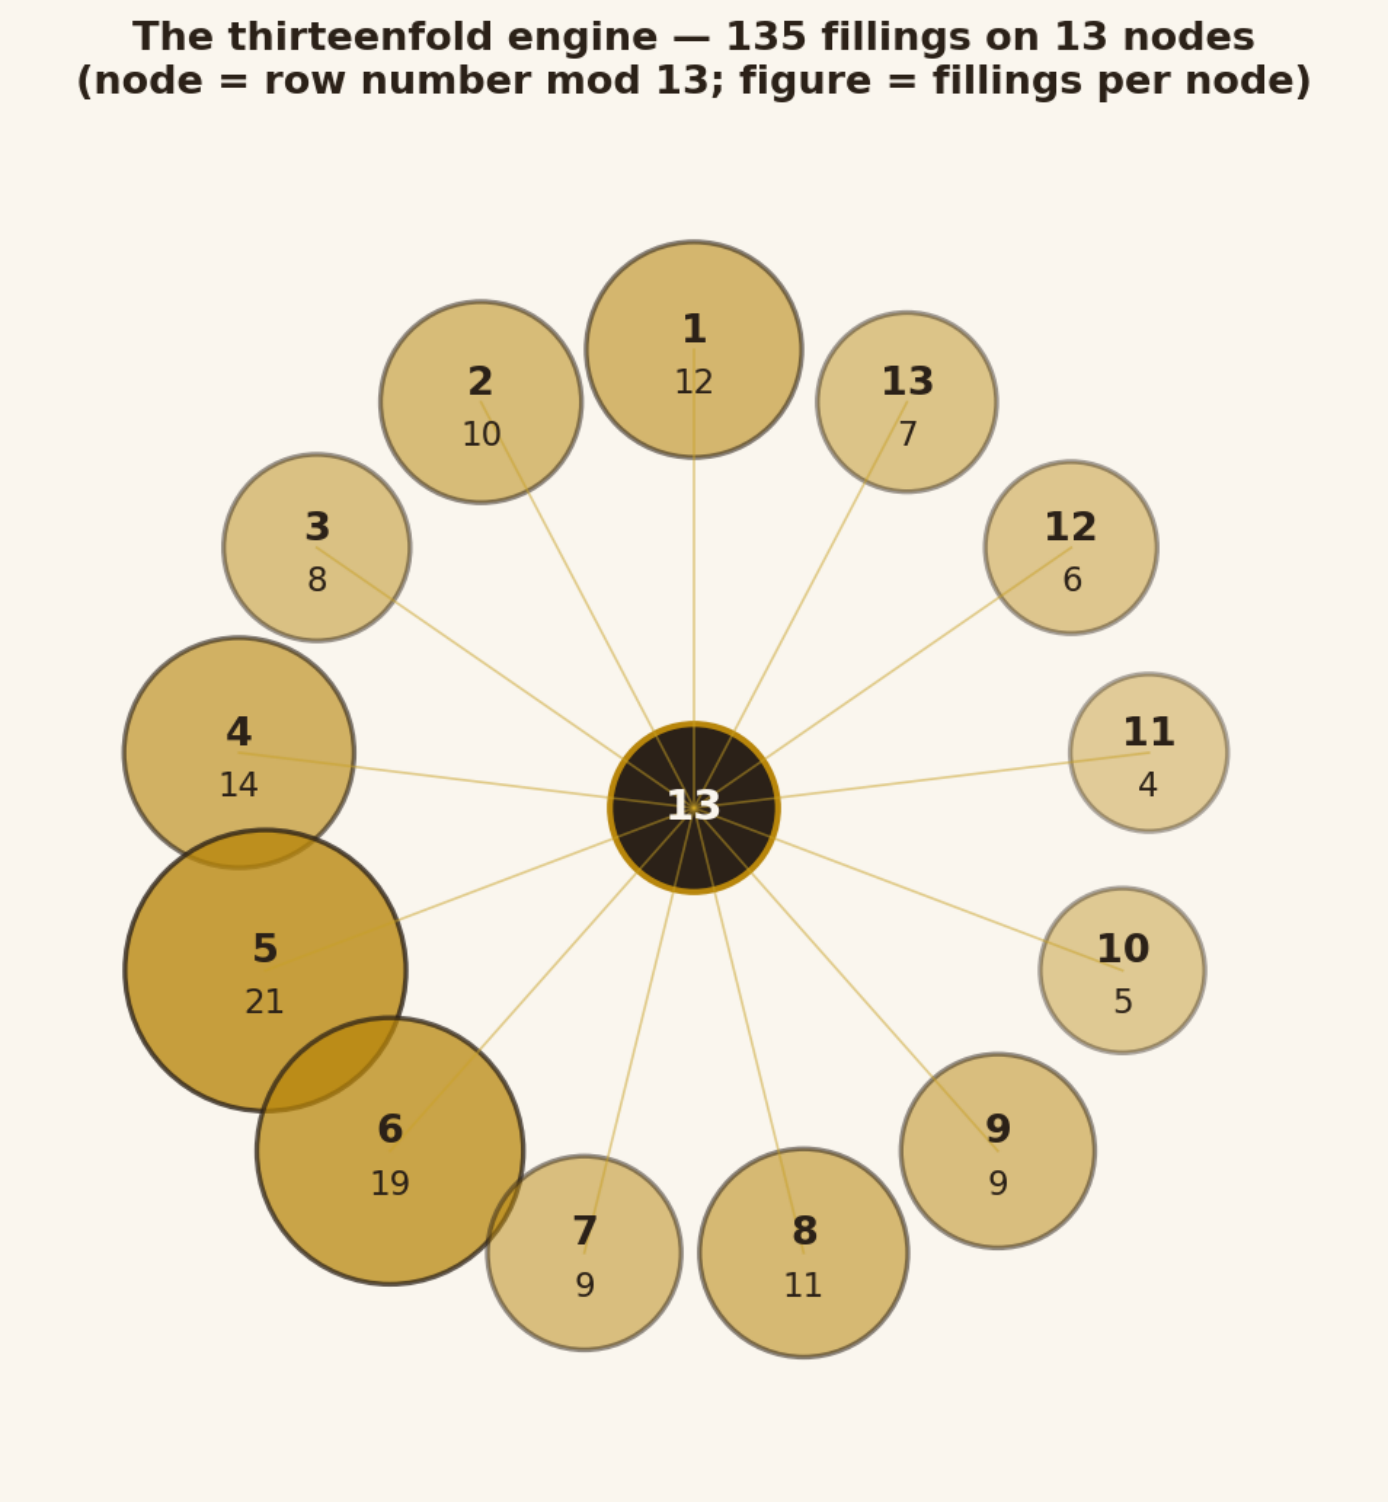

Figure 4 — The thirteenfold engine: 135 fillings on 13 nodes, node = ((row − 1) mod 13) + 1. Node size shows fillings per node.

V. THE WELLS

Scriptures — the Word and the Law

- Genesis 1:1, 3 (KJV): "In the beginning God created the heaven and the earth... And God said, Let there be light: and there was light." — creation as speech-act.
- John 1:1, 3 (KJV): "In the beginning was the Word, and the Word was with God, and

the Word was God... All things were made by him." — the Logos doctrine.
- Qur'an 36:82 (Pickthall): "But His command, when He intendeth a thing, is only that He saith unto it: Be! and it is." — kun fa-yakūn.
- Memphite Theology, Shabaka Stone: Ptah creates through heart (thought) and tongue (speech) — "what the heart devised and the tongue commanded" — the earliest known logos doctrine.
- Exodus 20:1–2 (KJV): "And God spake all these words, saying, I am the LORD thy God" — the Law is spoken before it is stone.
- Matthew 22:37–40 (KJV): "On these two commandments hang all the law and the prophets." — the whole Law hung on two loves: Will and Love, the 93 pair.
- Matthew 5:17 (KJV): "I am not come to destroy, but to fulfil." — the author's "Philosophy is the Fulfillment of the Law," said first in Galilee.
- Romans 13:10 (KJV): "love is the fulfilling of the law."
- Qur'an 5:48 (Yusuf Ali): "To each among you have we prescribed a law and an open way." — one source, many laws.
- Bhagavad Gita 4.7: "Whenever there is a decline in righteousness and an increase in unrighteousness, O Arjuna, at that time I manifest Myself." — dharma restored.
- Ma'at (Egypt, Book of the Dead 125): the heart weighed against her feather — the Law as the measure every soul meets.

Law — precedent and maxims

- Black's Law Dictionary (5th ed.), **"Right"**: "justice, ethical correctness, or consonance with the rules of law or the principles of morals" — the Law as consonance: the Word and the Law in agreement. (Verified from the author's extraction; educational only.)
- Marbury v. Madison (1803): a law repugnant to the Constitution is void — the author's own constitutional test ("repugnant = anything that weakens the individual of the indivisible").
- Fiat justitia ruat caelum — Let justice be done though the heavens fall.
- Ubi jus ibi remedium — Where there is a right, there is a remedy.
- Ignorantia juris non excusat — Ignorance of the law does not excuse.
- Nemo dat quod non habet — No one can give what he does not have.
- Res ipsa loquitur — The thing speaks for itself.

Axioms and maxims of philosophy

- Gnōthi seauton — Know thyself. (Delphic maxim)
- Cogito, ergo sum — I think, therefore I am. (Descartes)
- Ex nihilo nihil fit — Nothing comes from nothing. (Parmenides; Lucretius)
- Panta rhei — All things flow. (Heraclitus)
- "The unexamined life is not worth living." (Socrates, in Plato's Apology 38a)
- Entia non sunt multiplicanda praeter necessitatem — Entities must not be multiplied beyond necessity. (Occam's razor)
- "As above, so below." (Emerald Tablet, Hermetic)
- Sapere aude — Dare to know. (Horace; Kant)

Hip-hop — the Word as instrument

- Public Enemy, 'Fight the Power' (1989): "Our freedom of speech is freedom or death." — the Word as the refusal made articulate. (Verified in the compendium.)
- 2Pac, 'Keep Ya Head Up' (1993) — the Mother's song for the Child. (Verified in the compendium.)
- Eric B. & Rakim, 'I Ain't No Joke' (1987): "I ain't no joke, I used to let the mic smoke" — the MC's word as crafted power; the mouth as instrument. (Verified 2026-10-18.)
- Word is bond — hip-hop vernacular: the spoken word binds like covenant; what is said is law between speakers.
- Each one teach one — the proverb carried through hip-hop: knowledge passed hand to hand, the teaching engine.

Where the well had nothing genuine, nothing was drawn.

VI. AUDIT

- **Scripture.** Genuine: brief verbatim quotes from public-domain renderings (KJV, Pickthall, Yusuf Ali, Legge, Griffith); concepts entered as concepts (Ma'at, Asha, Dhamma, Hukam in the catalog's fuller table).
- **Law.** Genuine: Black's 5th-edition "Right" from the author's verified extraction; Marbury as his own cited test; five traditional Latin maxims, public domain.
- **Hip-hop.** Genuine: Public Enemy and 2Pac as verified in the compendium; Rakim verified 2026-10-18; vernacular and proverb flagged as such, no track claims invented.
- **Humanity.** Genuine: the author's coinages flagged as his throughout — the Trinity of Law, NO + OZ = LILITH, NO → 13, the two framings.
- **Honest limits.** Zero honest two-bank bridges across 590 weighings — reported as zero. The thirteenfold circle is the scribe's construction (mechanical mod-13), never doctrine; node offices await the author's pen. Constructed-tier convergences are hypotheses.

No forced correlations. Findings, never doctrine.
